

Press Release 22 November 2012

The Queensland Government has recognized the international business success of Bioproton. Bioproton was a finalist in the Agribusiness Award Category in Premier of The Queensland Export Awards in 2012.

The objectives of the Premier of Queensland Export Awards and the Australian Export Awards are to:

- Showcase Australia's top exporters
- Promote them as role models
- Encourage other Australian businesses to strive for success in world markets.
- The Premier of Queensland's Export Awards is the only way Queensland companies can enter the Australian Export Awards.

The link between the awards programs is an example of the collaboration of the Queensland Government, the business community and the Federal Government to encourage the growth of Australia's exports.
